Subject: Deficient Notice of Intention to Commence Small Mining Operations, Colorado Calumet Company, Inc., Maynard Topaz Mine, S/023/0099, Task ID# 2183, Juab County, Utah

Dear Mr. Sutton:

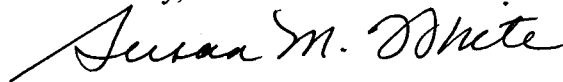

The Notice of Intent to Commence Small Mining Operations (NOI), received by the Division November 21, 2007, is incomplete. The following information is required:

1. The Quad name listed on the NOI is incorrect. It looks like it should be Dugway Pass.
2. The NOI must be signed by an officer of the company as registered with the Utah Division of Corporations.
3. The operations map received January 28, 2008 is not complete. It is labeled with a scale of 1 inch = 200 feet, but that scale does not correspond to the dimensions of the area shown when compared to your other maps. This operations map also does not include the additional area of disturbance you are adding to the transferred permit area. Please include detail about the operations that will be taking place in this additional disturbance area.
4. The background image for the operations maps needs to be something readable as well, or just blank paper. A sketch map of the area will suffice, if it is neat and readable, and drawn to scale.
5. The operations map also must have a north arrow and a label such as "Maynard Topaz Mine – Operations Map". Please also include the file number S/023/0099 in your map label.

If you have any questions about this letter, please contact me at (801) 538-5258, or Jan Morse at (801) 393-1401. In reply, please refer to file number S/023/0099. Thank you for your cooperation.

Sincerely,

A handwritten signature in black ink that reads "Susan M. White". The signature is fluid and cursive, with the first name "Susan" being more prominent than the last name "White".
